

STRATEGIC PLANNING SUPPORT

No team is too small for strategic planning

DO YOU FIND YOURSELF ASKING THESE QUESTIONS?

- ? Why am I the only one who really understands this business?
- ? How do I get my team more "on board"? How do I make time to stop and take stock of whether we're really doing the right things to achieve our goals?
- ? Why do people go off on tangents with their ideas?
- ? How far have we progressed and achieved?
- ? Are we well positioned for the future?
- ? How can I bring more meaning to the work my team does?

If you said 'YES' to any of these, then you're in good company. Top leaders regularly wonder about these things and make a priority of getting answers.

WHAT PREVIOUS CLIENTS SAY

"I thought today's planning session was 'spot on' in encouraging our employees to think outside the box in terms of what we might look like in the future. Really great to see the enthusiasm and great ideas. Nat you were brilliant in your facilitation, very engaging."

"Thank you once again for your very professional facilitation at our strategic planning workshop last week. You did a great job!! Your contribution is very much appreciated."

"Natalie ran a planning session for a total review of our service delivery and structure. Natalie was someone I immediately clicked with, and was a powerful, effective and dynamic facilitator. Her ability to encourage every single person to participate and "own" their role in the day was impressive and was invaluable in assisting us with our re-structure. I really felt she cared and was committed to assisting us through transition and into the future. Her preparation and consultation before the event and follow up afterwards were also greatly appreciated."

"YOU CAN BE MORE CONFIDENT THAT YOU'RE RUNNING A SLICK OPERATION AND MAINTAINING GROWTH"

The strategic planning process is facilitated by Natalie Lincolne and her team. All facilitators have an outstanding track record in strategic planning, performance consulting and coaching.
